

There are three options to upload your footage to St Stephens, depending on whether you use iCloud (iPhones), Google Cloud (android phones), or our own dedicated server (any device).

### **Upload to our own server (NextCloud)**

This server is hosted at the Vicarage and it is located at <http://halfang.duckdns.org:8282/>

Username: ststephen

Password: passwordststephen

Click on the + sign at the top of the screen

Navigate where the video file is located within your phone.

No need to send this via email – we will get notified immediately and process the video file.

### **iCloud sharing**

Unfortunately I cannot test this myself, but following this guide from Apple:

<https://support.apple.com/en-gb/guide/icloud/mm93a9b98683/icloud>

## **Share photos and videos with an iCloud Link**

When you share photos and videos with an iCloud Link, anyone with the link can view them.

1. In Photos on iCloud.com, **select** the photos or videos you want to share. You can also double-click a single photo or video.

2. Click , then choose Copy Link.

Then, send this email to Fr Geoffrey. [geoffrey@fastmail.uk](mailto:geoffrey@fastmail.uk)

### **Google Photos sharing**

<https://support.google.com/photos/answer/6131416?co=GENIE.Platform%3DAndroid&hl=en>

## **Send a link or share to other apps**

1. On your mobile device, open the Google Photos app .
2. Select a photo, album, or video.
3. Tap Share .
4. To create and share a link, tap Create link.
5. Send this link to Fr Geoffrey. [geoffrey@fastmail.uk](mailto:geoffrey@fastmail.uk)
